SYSTEMS & MECHANICAL HANDLING EQUIPMENT

A used heavy duty powered roller transfer conveyor.

The conveyor has become available for purchase after being removed from service due to production line modifications.

The two conveyor sections shown join to form one continuous length of conveyor.

- Heavy duty mild steel painted supporting structure.
- Mild steel roller supporting side frames and local guarding.
- Heavy duty integral bearings.
- Rollers are 5" diameter with a roller face width of 1280mm on a 370mm pitch.
- Top of roller height is 605mm nominal.
- Overall combined conveyor length is 7250mm nominal.
- Powered by a chain and sprocket arrangement via a 1.5kw shaft mounted geared motor unit.

**Price - £4,000.00 ex-VAT, ex works, sold as seen.
(Reasonable offers will be considered)**
